- 2. Although the contract is now funded to the Contract Ceiling price, there may be some additional funding required to cover mechining of the film holders and redesign of the magazines to permit interface between the printer and processor. This will be handled as a change-in-scope since it is an added requirement.
- 3. The next progress review meeting is planned for the end of June 1967.

- 1. Evaluation of Prace I Report completed and accepted.
- 2. A review of the preliminary work statement for Phase II was held at the contractors plant on 7 July 1965. Some modification and clarification was requested prior to submission of the official work statement. These will be made and submitted together with a detailed cost breakdown for Phase II.
- ). As the result of requested changes during Phase I (see Contract Inspection Report No. 6 dated 18 January 1965) and the delay incurred in evaluation of Phase I, the work statement for Phase II will show an increase in funding requirements over that presently contracted for and a time extension beyond the current delivery date.
